EXPERIENCE

Filmtools

Junior Web Developer

Jun 2019 - Aug 2020 | Burbank, CA

• Designed and developed landing pages for filmtools.com using HTML, CSS, and JavaScript.

• Created custom WordPress themes from scratch.

• Collaborated with other teams, such as design, marketing, and development.

• Worked with UI/UX designers to design and code provideocoalition.com, a news website used by many film-industry professionals. Used JavaScript and PHP to write custom functionality.

Revature

Java Developer

Mar 2018 - Feb 2019 | Tampa, FL

• Worked with Java Support team to perform root cause analysis of bugs in an Angular and Java web application.

• Consistently resolved high volume of tickets relating to an Angular and Java web application, resulting in receiving "Raving Fan" award by clients.

• Completed project utilizing Spring Boot and Angular to create an expense reimbursement web application.

• Suggested React and Spring Boot to Principal Java Lead for a new employee hour tracking project. This helped reduce configuration time by at least one week.

PROJECTS

Wut-Group

A full stack web application where users can create and join groups with similar interests.
Stack: React, Node, Express, Knex + Objection, MySQL.

VIEW CODE

• Used React to build the user interface and Bootstrap for styling.

• Created and handled API routes with Node and Express.

• Integrated Knex and Objection to generate models and query the MySQL database.

• Managed application state with Redux and React Hooks.

• Handled authentication by utilizing bcrypt, JWT, and Passport.
